ASME Industrial Filter Housing
Multi-Round Series

The Industrial ASME Cartridge housing is designed to meet your critical processing needs. These housings are commonly used in the Industrial, Chemical, Food and Beverage Industries.

The housings will accept 222 o-ring style and DOE Cartridges. A complete line of housings from 3 to 51 round and in sizes from 10 to 40 inches are available to meet the needs of your critical applications. The design of the housing provides a positive seal with swing bolt closure.

Secure swing bolt closure design. Custom options are available and include: handles, lifting davit upstream and downstream drains and choice of inlet/outlet connection sizes.

Industrial Offset and ASME U Stamp option available.

Materials of Construction

Head:	304 Stainless Steel
Bowl:	304 Stainless Steel
Center Post with Seal plate:	316L SS
Vent/ Drain Plug:	304 Stainless Steel
O-Rings:	Silicone, Viton, EPDM, Buna, PTFE encapsulated

Dimensions (nominal)
Lengths (in): 10, 20, 30 and 40

Connections
Inlet/ Outlet : Flange
Vent / Drain : NPT

Finish
Exterior & Interior Finish: EP, BB

Operating Conditions
Max operating pressure: 150 psi @ 250F

Applications	
Process Water	**Food & Beverage**
Reagents	**Sterile Air**
Fine Chemicals	**Electronics**

Features	Benefits
▫ Industrial Design	▫ Offset Style ▫ Fully Self draining ▫ No Dead Legs
▫ Low Hold Volume	▫ Maximize Product Recovery
▫ Easy to use low point drain valve	▫ Ease of filter change-out
