

## High Purity Multi Round Housing Band Clamp

The High Purity Water Service Band Clamp Multi Round Housing has been designed to meet your filtration processing needs. These housings are manufactured with high quality workmanship and can be customized to your needs. The housing can be constructed of either 304 or 316L stainless steel for excellent resistance to corrosive chemicals. This housing is available in 3 round to 21 round styles with lengths from 10 to 40 inches. All housing have machined seat plates for 222 or 226 end configuration. DOE Style is also available.

The clamp closure makes element change quick and easy while ensuring a good seal.

<b>Applications</b>	
<b>High Purity Water</b>	<b>Solvents</b>
<b>Reagents</b>	<b>Biological Fluids</b>
<b>Pharmaceutical</b>	<b>Electronics</b>
<b>Fine Chemicals</b>	<b>Ink Jet Inks</b>

### Materials of Construction

Head: 304, 316L Stainless Steel  
 Bowl: 304, 316L Stainless Steel  
 Clamp: 304 Stainless Steel  
 Vent/ Drain Plug: 304, 316L Stainless Steel  
 O-Rings: Silicone, Viton, EPDM or Teflon

### Connections

Inlet/ Outlet : NTP, Flange, TC  
 Vent / Drain : FNPT, TC
